FEITIAN
WE BUILD SECURITY

FEITIAN Fingerprint Card is a Smart Card embedded with flexible biometric sensor and strong matching chip, where:

- Biometric Sample Capture (Enrollment / Verification)
- Minutiae Template Extraction
- Template Storage
- Templates Matching

is performed within the card, therefore the fingerprint data will never leave the card.

FEITIAN Fingerprint Card is the perfect combination of portability and security for payment and access control.
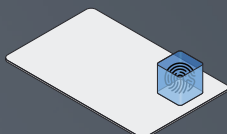

ACCESS CONTROL

SECURE PAYMENT

Zero-Modification

Compatible with current payment terminals, friendly to banks & merchants.

No More PIN & Sign

The perfect combination of efficiency and security.

No Database

Fingerprint data capture / storage / matching is performed within the card, no extra database required.

Easy Enrollment

Mobile app enrollment via bluetooth
